

Government Committee because we were trying to get amendments worked out and we tried to rush it because time is a factor. All I am going to say that whichever way you vote on Senator Snyder's motion be prepared to carry the bill through all the way to Final passage so that note worthy intent of Senator Kime started with can be accomplished. There are times that you will be hung on the horns of a dilemma, which means that whichever way you go you are in for a problem. If you accept Senator Snyder's motion accept it with the intention of supporting the bill all the way across. If you reject it, reject it with the same intent but I hope that this is not going to be a stragedy that will result in the killing of Senator Kime's bill.

PRESIDENT: Next to speak is Senator Stromer.

SENATOR STROMER: Mr. President, would Senator Fellman yield to a question?

PRESIDENT: Senator Fellman, in the chamber? Senator Fellman would you yield to a question?

SENATOR FELLMAN: Yes.

SENATOR STROMER: Senator Fellman in your remarks that you mentioned that this motion or amendment was in favor of fiscal responsibility.

SENATOR FELLMAN: Fiscal, not physical Senator.

SENATOR STROMER: I want to make that clear. The way the amendment is written by changing the dead-line, couldn't they also raise their salary if they so chose?

SENATOR FELLMAN: Senator Stromer, you are the Chairman of the Young Republicans of Nebraska and you used to be an outstanding candidate for congress, do you feel that there is any way after all of the hulla baloo that has been going on in the Douglas County Court House, that there is any way at all that those men are going to raise their salaries after they have voted to cut them back. They have sought an Attorney General's opinion for authority to do so, they are scared of their political life. If they want to raise it I suppose that they could except for the fact that they have already stated, and I think that take an action to cut back those salaries. Now they have the right to set their own salaries. We are not changing that. I would assume that they are at least as politically wise as some of us think that we might be at times, and I can't believe that that salary would go up. If it worries you that I suppose that you should support Senator Snyder, that would be a good reason for you to do so, and you would probably do it anyway.

PRESIDENT: Senator Mahoney, passing? OK, any further discussion of the motion? OK, Senator Snyder do you care to close on your motion then?

SENATOR SNYDER: Yes, Mr. President thank you, I do wish to close. I have been a member of this legislature now for four years, it is no secret that I have often stated that I am not seeking reelection to the legislature. I have told several members here most recently more often that it is doubtful that I am going to be a candidate for the Douglas County Board. When I see these things happen, it makes me
